

THE CURE

Hook

I wanna be on the right side of History/ I wanna I wanna be /I wanna be on the same side as victory/I wanna I wanna be/ I wanna to be on the right side of History/ I wanna I wanna be/I wanna be on the same side as victory/ No misery there's trickery/ Cause injury and misery bad memories /So literally/ No Liberty just Poverty we on the wrong side of History

I wanna be on the right side of History/ I wanna I wanna be /I wanna be on the same side of victory/I wanna I wanna be/ I wanna to be on the right side of History/ i wanna I wanna be/I wanna be on the same side of victory/ I wanna I wanna be I wanna be

Len Verse

I had no idea what they would take from me/ Poor threw us money take part in a case study/ told for Bad Blood being treated/ Lies wonder why all this bad blood between us/ Ain't trying to see history repeat itself/ Living in misery lack of treatment would lead to death/ Eyes pouring tears years enduring hatred /Want back my 40 years still waiting on 40 acres/ Made the papers front page First Nations/ Malnourished indigenous took advantage of Innocence /Distant memories that got buried/ Digging up the past all we got was dirty/ Documents destroyed and the truth with it/ God bless the survivors still the proof Livin/ Next steps we overdue to take/ Start living as One race that's the human race

Charles Verse

put needle in skin
let vaccine seep in

*

no withholding food or medicine
no poisoning by North Americans

*

biased malpractice still exists
we no longer their experiments

*

Sarah Baartmen
Henrietta Lacks

*

we can trust a vaccine
designed by a woman who's Black

*

but what about our first nation's
ghosts of racist's past

*

turning their ugly head
when we ask

*

about aboriginal children
made government lab rats

*

can't go from to sea to sea

to the great white north

*

study unethical, tuskegee

ward of state, custody

*

north star ain't set us free

can't stand in solidarity

*

racism is a virus with no cure

a vaccine will help us endure

*

racism is a virus with no cure

a vaccine will help us endure
